

BIS Tacker Clamp

(0 15 25)

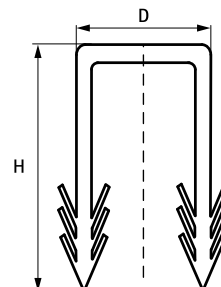

for floor pipe to burling plate or rail Ø 20 mm

Features and Benefits

- for a manual fixing of floor pipe to profiled plate or rails e.g. Raufix® on isolation plate
- for floor pipe up to Ø 20 mm
- can be used in addition to burlted plates near manifolds, pipe bends and damaged plates
- shape retaining clamp ends
- length adapted to various insulation thicknesses
- almost all common rails have punched holes adapted to these clamps
- material: PP (polypropylene)
