

Walraven Pacifyre[®] Wool Coating

(U04 115)

Features and Benefits

- offers protection up to EI 120
 - coating or filler designed for fire protection in cables and penetration seals
 - particularly suitable for applications requiring thin dry film thicknesses
 - forms a ceramifying protective layer when exposed to fire due to the Strong Endothermic Reaction
 - suitable for protective cable coating, cable and pipe penetration sealing, and large-surface bonding on critical substrates
 - can be applied indoors and in sheltered outdoor areas
 - withstands humidity, freeze-thaw cycles, UV radiation, and various oils and chemicals
 - offers strong mechanical resistance
 - viscosity can be tailored to specific needs
 - coating can be applied using a brush, paint roller, or airless spraying machine
- solvent-free and halogen-free
 - tested and approved according to EN 1366-3
