

WIS Chemical Anchor WPER500

(L 03 95)

ultimate performance epoxy chemical anchoring system for heavy duty anchoring and rebar connections

Features and benefits

- reduced edge and anchor spacing distances
- always correct mixing ratio thanks to the static mixer nozzle
- approved for use with rebars as anchors in cracked and non-cracked concrete
- cartridge may be used up over several times (each installation after a break requires new mixing nozzle)
- ETA Option 1 approval for cracked and non-cracked concrete
- A+ VOC emissions class
- ETA TR023 for post-installed rebar connections
- seismic performance categories C1 and C2 for design of anchorages under seismic action
- tested according to LEED 2009 EQ c4.1, SCAQMD rule 1168 (2005)
- substrate type:
 - cracked concrete
 - non-cracked concrete
