

WPER500-S Chemical Anchoring System

(L 03 94)

Features and Benefits

- always correct mixing ratio thanks to the static mixer nozzle
- installations in flooded holes without any negative effect on performance
- cartridge may be used up over several times (each installation after a break requires new mixing nozzle)
- reduced concrete edge and anchor spacing distances
- reduced drilling diameter for M20 and M24, resulting in 50% product saving during installation
- ETA Option 1 approval for cracked and non-cracked concrete
- ETA TR023 for post-installed rebar connections
- seismic performance categories C1 and C2 for design of anchorages under seismic action
- WRAS Material Approval for contact with potable water
- LEED v4.1 attestation
- A+ VOC emissions class
- substrate type:
 - cracked concrete
 - non-cracked concrete
