

# Pacifyre<sup>®</sup> MP Soft Bulkhead

(U 04 84)

## Features and benefits

- for sealing combustible and non-combustible pipes and cable penetrations in EI90/120 requirements according to EN 13501 in walls (solid walls or light partition walls  $\geq 100$  mm) and ceilings ( $\geq 150$  mm). Approved for use in Austria and other European countries (not in Germany or Switzerland).
- consistency of the applicable coating (#2139300002) can be changed so that it can be brushed or sprayed.
- suitable for installation in wet or damp rooms
- coating can freeze. After thawing, it can continue to be used without restrictions.
