

Strong and easy to use

Maxx

Heavy frame modular support system

Modular support system

Maxx is a flexible, heavy rail system that is safe, secure and corrosion resistant and offers the possibility of 3D construction.

Maxx

Heavy frame modular support system

A new modular steelwork support system for the construction of heavy duty, load bearing frames which can be used for a wide range of applications.

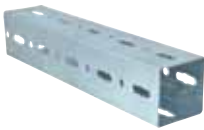

Our Maxx system is compatible with our other installation systems and we can provide this fully assembled or in parts allowing easy transportation to site. Walraven can offer a complete solution no matter how big or small your project.

Maxx is a great alternative to welding and drilling structural steel systems and the use of high quality hot dipped galvanised steel components means Maxx is perfectly suited to indoor and outdoor applications. As always with Walraven you can expect a great service and should you need any further help our after sales support are always happy to advise.

The components

Maxx Heavy Rail Profile

- Closed steel profile
- Offers support for fixings to pipe and devices
- With continued perforation on all sides
- Available in two sizes:

100 x 100 x 3mm (# 65019610)
120 x 100 x 4mm (# 65019612)

Maxx End Caps

- For clean finishing of rail end
- Easy to fix securely

6566810 / # 6566812

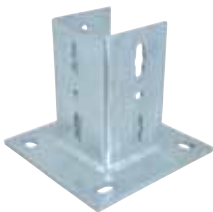

Maxx U-Shape Bracket

- Increases strength of joint by preventing splay in rail
- To distribute tightening force when using Maxx Bolt Set

6589102

Maxx Wall Plates

- U-profile on wall plate
- For fixing rail to wall or floor

6581800 / # 6581801

Maxx Beam Clamp

- For a solid fixing to steel construction
- Always use 2 beam clamps per fixing

6589100

Maxx 3D Coupler

- To aid fabrication with Heavy Rail Profiles

6589900

A complete solution for all industrial and heavy duty applications

- Quick and easy to install
- Avoids the need for on-site fabrication or welding
- FREE technical advisory service, from engineering to on-site construction support

Maxx T-Connector

- Easy fitting due to rounded edges
- For angled connection

6589901

Maxx Profile Connector 90°

- For 90° angled connection Heavy Rail Profiles
- With slotted holes for easy fixing

6681015

Maxx Cross Connector

- To aid fabrication with Heavy Rail Profiles

6589101

Maxx Linear Connector

- Front connection with Heavy Rail Profile

Always use two pieces of linear connector per fixing
6589335

Maxx Hammerfix

- Pre-assembled and ready to use
- Available in two sizes:

M12 x 40mm (# 65219204)
M12 x 70mm (# 65219207)

Maxx Bolt Set

- For fixing to Maxx Heavy Rail Profiles
- The set includes 25 bolts, nuts and washers

M12 x 140mm (# 614581213)
M12 x 160mm (# 614581216)
M16 x 140mm (# 614581614)
M16 x 160mm (# 614581616)

Full product take-off service

Walraven work directly from project plan drawings and offer detailed quotations aiming to deliver the most cost effective solution whilst ensuring no shortages or surplus waste.

Technical Advisory Service

From the experts at Walraven

At Walraven, our service does not end after you have purchased your products. We pride ourselves on our invaluable after sales support and technical advice.

The Maxx system is simple and easy to use, just like our other ranges. But as with any new product, we know you may have questions. So whether you are a new customer or a Walraven regular, we are here to support.

For more information visit walraven.com.

From engineering to on-site construction support.
